

LeakPro® – LDC-M Series

Leak Detection Module

- ✓ High Sensitivity | Selectable
- ✓ LED Leakage Indicator with Alarm
- ✓ DIN Rail Mounting
- ✓ Visual | Audible Alarm
- ✓ NO | NC Contact Relay

Detect, Alert, Protect
Safeguarding Against Every Drop

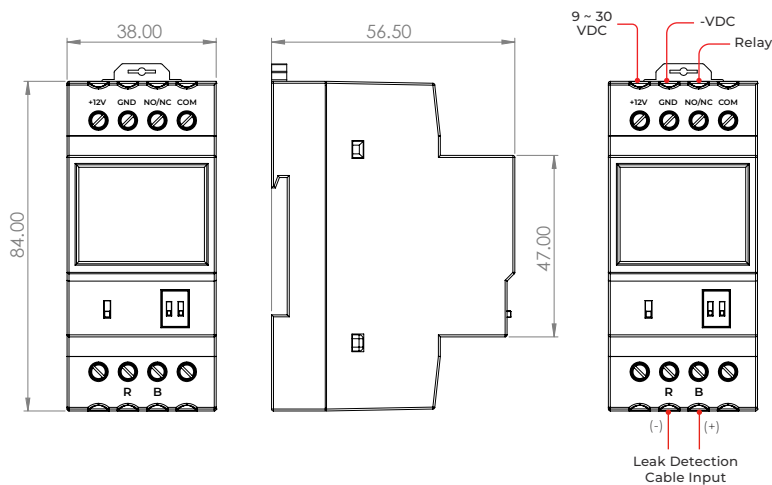

LeakPro® - Detect, Alert, Protect

The LeakPro® LDC-M Series Leak Detection Module is a simple and cost-effective liquid leak detection device that allows adjustable sensitivity via a panel dip switch to accommodate different leak detection environments and, integrates a relay contact with various monitoring systems.

Specifications

Response Time	≤1 sec
Detection Distance	500m
Operating Temperature	-40°F ~ 158°F -40°C ~ 70°C
Supply Voltage	9 ~ 30VDC
Humidity	0 ~ 95%RH (No Condensation)
Power Consumption	≤0.5W
Contact Type (Dry)	NO NC
Relay Load Capacity	2A, 24VDC 120VAC

Dimensions & Wiring

Model Selection

Part Number	Description
LDC-M	Leak Detection Module
LDC-G	Leak Detection Cable
