

SP 63-S Mobile

TECHNICAL SPECIFICATION:

Size range:	20mm - 63mm (1/2" - 2")
Piping & Materials:	<u>See Welding Selection Chart</u>
Power:	Transformer Plug: 110V / 15A Tool: 230V / 15A
Tool Dimensions:	22" x 15" x 13"
Tool Weight:	70 lbs.
Shipping Dimensions:	48" x 40" x 37"
Shipping Weight:	500 lbs.

FEATURES:

- Compact design for tight spaces
- Removable from base
- Force controlled welding
- Automated clamp movement and control
- Printer and cleanroom labels
- New power transformer for added protection
- **Note:** Recommended for final tie-in applications

NOTE:

- The SP 63-S Mobile tools are designed for remote connections and final tie in welding
- Because of its design and portability, this tool is not as robust as the SP 110-S series of tools
- Using the SP 63-S tools for a complete project, will put excessive wear on the units and possibly lead to premature failure
- Care must also be taken, with the heater cords and plugs, to prevent straining the wires and plug connection points
- Excessive force when pulling long lengths of pipe can also lead to servo motor failures, due to the excessive force required
