

LeakPro® – LDC-4M Series

4-Channel Leak Detection Module

- ✓ High Sensitivity
- ✓ LED Leakage Indicator
- ✓ Visual | Audible Alarm
- ✓ Compatible with Leak Detection Cable

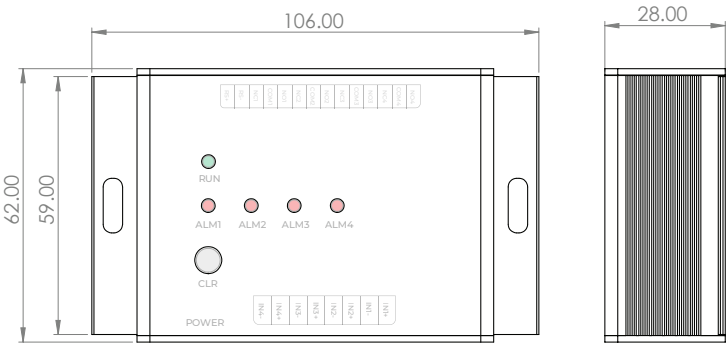

LeakPro® - Detect, Alert, Protect

The LeakPro® LDC-4M Series provides a simple, economical solution for liquid leak detection, featuring adjustable sensitivity to accommodate varying site conditions. Designed for use exclusively with leak detection cable, it interfaces easily with external monitoring and control systems via four 3-amp relay

Specifications

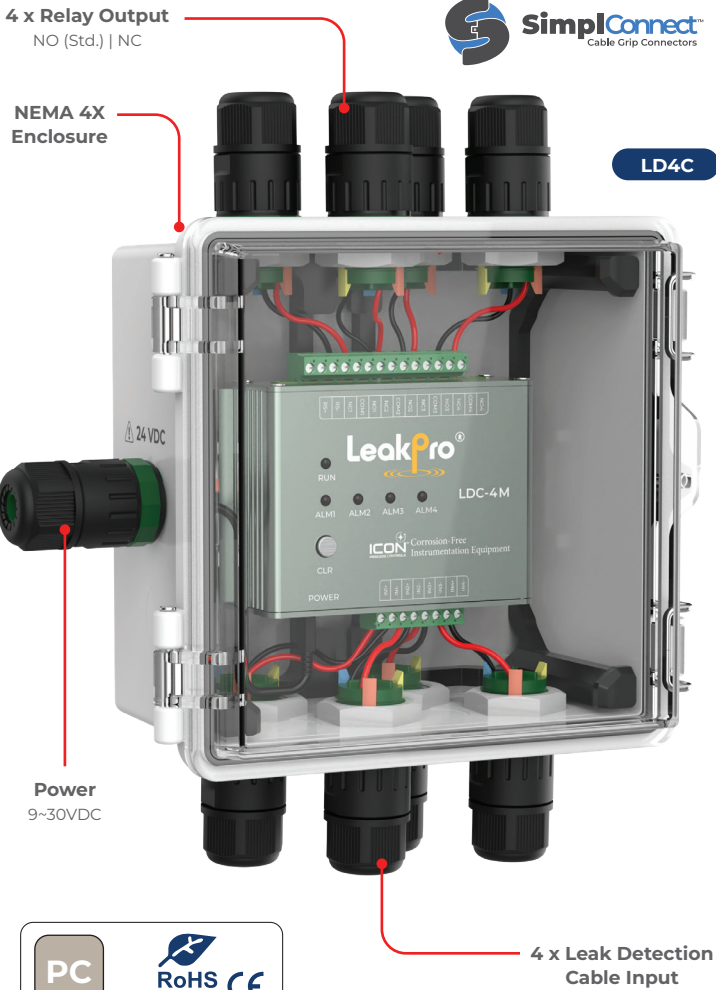

Relay Output	4 x 3A Relays
Sensor Input	Leak Detection Cable Only
Detection Distance	500m
Operating Temperature	-40°F ~ 158°F -40°C ~ 70°C
Supply Voltage	9 ~ 30VDC
Humidity	0 ~ 95%RH (No Condensation)
Power Consumption	≤0.5W
Contact Type (Dry)	NO (Standard) NC
Relay Load Capacity	3A, 30VDC 250VAC

Dimensions (mm)

Model Selection

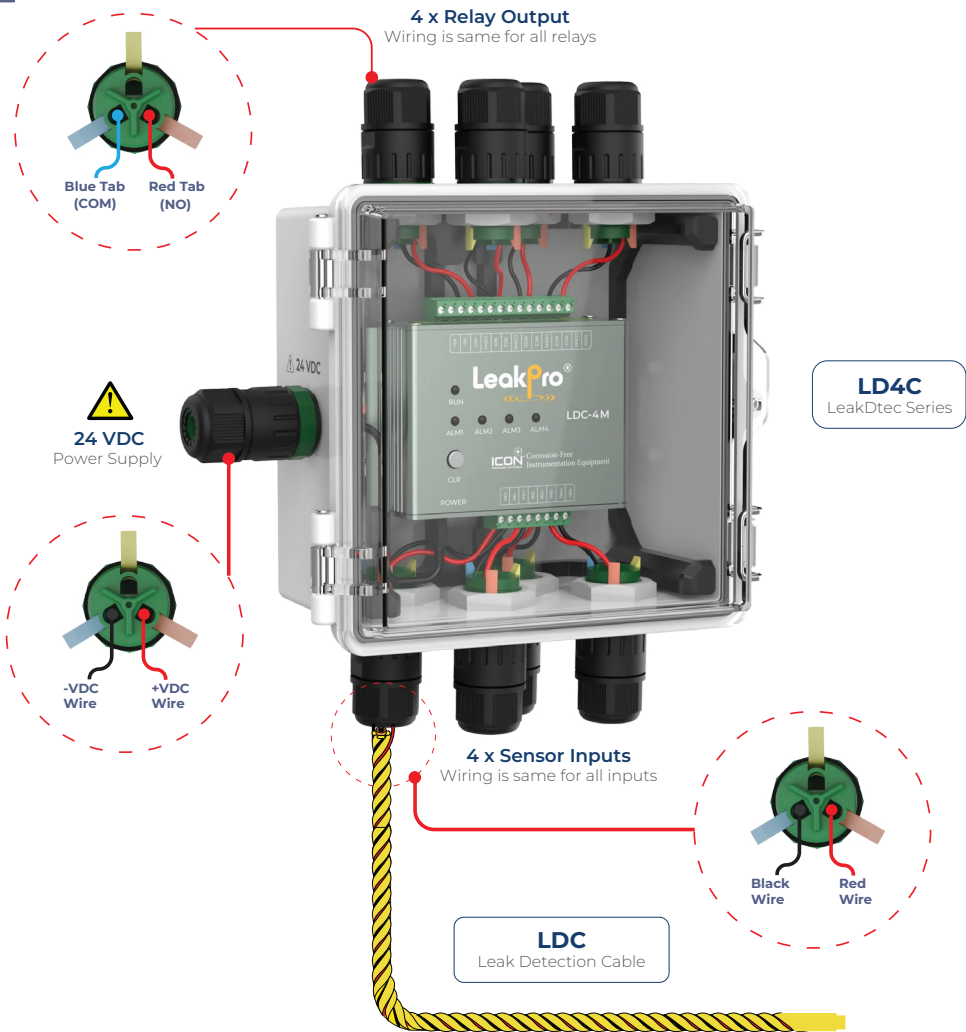

Part Number	Description
LDC-4M	4 x 3A Leak Detection Module
LD4C	4 x 3A Leak Detection Module + NEMA 4X Enclosure
LDC-G	Leak Detection Cable
